MEMORANDUM FOR: Director of Central Intelligence  
FROM: SA/DCI/IA  
SUBJECT: Briefing Book for DCI Trip: START and INF

1.  and company prepared this book to support you in your discussions with Ambassadors Paul Nitze and Edward Rowney. Because Larry Gershwin will be accompanying you, he did not attempt to address the trilogy of NIEs: the strategic forces, monitoring, and the Soviet approach to arms control. Beneath this memo (but not part of the book) are:

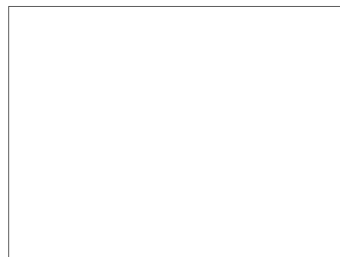

25X1

- a summary of INF and START negotiations,
- a message from the START senior intelligence advisor about the START negotiator's views on public diplomacy,
- a message from the INF senior intelligence advisor on Soviet intentions to put the US in an analogous position if the US deploys INF.

2. This book may be more detailed than you wish to have but I thought you might like to have such details available for your reference.

3. Enjoy your trip.
